**FTA TERMS AND CONDITIONS**

**7m. Contract Term Limitation.** Grantees shall not enter into any contract for rolling stock or replacement parts with a period of performance exceeding five (5) years inclusive of options. All other types of contracts (supply, service, leases of real property, revenue and construction, etcetera) should be based on sound business judgment. Grantees are expected to be judicious in establishing and extending contract terms no longer than minimally necessary to accomplish the purpose of the contract. Additional factors to be considered include competition, pricing, fairness and public perception. Once a contract has been awarded, an extension of the contract term length that amounts to an out of scope change will require a sole source justification

**8a. Full and Open Competition.** All procurement transactions will be conducted in a manner providing full and open competition. Some situations considered to be restrictive of competition include, but are not limited to:

- (1) Unreasonable requirements placed on firms in order for them to qualify to do business;
- (2) Unnecessary experience and excessive bonding requirements;
- (3) Noncompetitive pricing practices between firms or between affiliated companies;
- (4) Noncompetitive awards to any person or firm on retainer contracts;
- (5) Organizational conflicts of interest. An organizational conflict of interest means that because of other activities, relationships, or contracts, a contractor is unable, or potentially unable, to render impartial assistance or advice to the grantee; a contractor's objectivity in performing the contract work is or might be otherwise impaired; or a contractor has an unfair competitive advantage;
- (6) Specifying only a "brand name" product instead of allowing "an equal" product to be offered without listing its' salient characteristics.

Grantees may define the salient characteristics in language similar to the following:

- (a) 'Original Equipment Manufacturer (OEM) part #123 or approved equal that complies with the original equipment manufacturer's requirements or specifications and will not compromise any OEM warranties';  
or
- (b) 'Original Equipment Manufacturer part #123 or approved equal that is appropriate for use with and fits properly in [describe the bus, engine, or other component the part must be compatible with] and will not compromise any OEM warranties' ; and
- (c) Any arbitrary action in the procurement process.27.5

**8b. Prohibition Against Geographic Preferences.** Grantees shall conduct procurements in a manner that prohibits the use of statutorily or administratively imposed in-State or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. This does not preempt State licensing laws. However, geographic location may be a selection criterion in procurements for architectural and engineering (A&E) services provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.
